Route of Entry; Eyes, skin, inhalation, ingestion

Target Organs;

Inhalation; Inhalation of spray mist may cause irritation to the respiratory tract.

Skin Contact; Repeated or prolonged contact with skin may cause mild irritation and possibly dermatitis.

May aggravate a pre-existing skin and respiratory disorders.

Physical Hazard; Aerosol containers are pressurized (even when empty!) Do not expose to temperatures above 120 F. Do not puncture or burn can. Failure to observe these precautions may result in rapid and violent decompression of the container producing projectiles and atomization of the liquid contents.

Notice; Reports have associated repeated and prolonged occupational overexposure

to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

4. FIRST AID MEASURES

Inhalation; Remove to fresh air. If not breathing, give artificial respiration.
If breathing is difficult, give oxygen. Continue to monitor.
Get medical attention.

If eye irritation persists, obtain medical treatment.
Ingestion; Do not induce vomiting! Get medical attention immediately!

5. FIRE FIGHTING MEASURES

Flash point; 169 F (TCC)

Unusual Fire & Explosion Hazard; Level 3 Aerosols - Contents Under Pressure

Extinguishing Media; Dry chemical. Carbon dioxide, halon or foam.

6. ACCIDENTAL RELEASE MEASURES

Spill or Leak Procedure; Leaking cans should be put into suitable container
until the internal pressure has dissipated.

Waste Disposal Method; Empty aerosol cans should be punctured and drained.
Can and contents can then be incinerated. Dispose of in accordance with
