 Watery eyes, stuffy nose, chest tightness? Symptoms may be from breathing wood smoke. Learn more **@epaburnwise: epa.gov/burnwise**

 Do you know if your firewood is dry enough to burn efficiently? There's a simple way to find out. For less than \$20 you can buy a moisture meter. Dry wood burns hotter, and hotter fires provide more heat and smoke less--ultimately saving you time, energy and money. Take a look at this video on how to use a moisture meter.

 Split, stack, cover and store! If you heat your home with **#wood**, follow these 4 steps to burn wise this **#winter!**  
<http://www.youtube.com/watch?v=yo1--Zrh11s>

 Burn Wise: Now is the time to clean! Be sure to clean ashes from your wood-burning appliance. Excess ashes can clog the air intake vents, reducing efficiency. Dispose of ashes or any flammable material in a metal container away from the house to reduce the risk of fire. Check back every week this winter for a new tip from EPA's Burn Wise program.

**HYPERLINK TEXT:** Even wood stoves need a little maintenance. Here are some easy tips!

**LINK:** <http://www.epa.gov/burnwise/maintenance.html>

 Cleaning the house for the **#holidays**? Contact a certified professional to clean and maintain your chimney. Don't forget your wood-burning appliance! Learn before you burn **@epaburnwise**

 Burn Wise: Don't risk a chimney fire! Never burn Christmas trees in a wood stove or fireplace. Also, don't dispose of wrapping paper in your wood stove or fireplace. Burning wrapping paper can cause high flames and emit toxic fumes. Check back every week this winter for a new tip from EPA's Burn Wise program.

**HYPERLINK TEXT:** Burn Wise and cozy up to a safe burning fire for the holidays.

**LINK:** <http://www.epa.gov/burnwise/bestburn.html>

 Keep the holiday cheer by not burning your tree or wrapping paper! Learn before you burn with **@epaburnwise**:  
<http://go.usa.gov/rGhT>

 Burn Wise: Keep your chimney clean! A clean chimney provides good draft for your wood-burning appliance and reduces the risk of a chimney fire. Have a certified professional inspect your chimney once a year. Check back every week this winter for a new tip from EPA's Burn Wise program.

**HYPERLINK TEXT:** It's almost 2014--have you taken a look in the chimney yet? Now is the time!
